

A Special TV Offer

By Dean Michael Zadak

It's late at night. I barely survived today's WOD and was exhausted. Half asleep, I was jolted awake by an announcer shouting, "All this for the low, low price of \$19.95." Like passing a wreck on the side of the road, I can't help but look and I'm so glad I did. Now I no longer have to spend another day taking a chance of piercing my brain with a cotton swab. Because of Wax-Vac, I can enjoy the convenience and time savings of a product that vacuums the wax painlessly from my ears. Furthermore, I can barely contain the excitement thinking about seeing all the dead skin I scraped off my feet with Ped-Egg. Guess what? All that skin is kept securely in a container shaped like an egg. I can't wait to show you. How did I not think of that?

Hang on a minute. From the "Pocket Fisherman" to the "Pocket Hose" to "The Long Reach Comfort Wipe" product which "is the answer to personal hygiene when reaching is difficult," there are so many products being hawked on TV, but not a single one for the Crossfitter. That is except for "Sauna Pants" that "provide the benefits of a heat sauna in the area you need the most." I don't know about you, but I don't need any more heat down there than I already have.

I may not be the next contestant on Shark Tank, but I'm as innovative as the next guy. With a dry erase marker in hand and clean white board, I brainstormed on what Crossfitters need most. Without further ado, directly from Deano Enterprises, I bring you:

KneBreeze: Don't let the offensive and embarrassing smell of your kneepads keep you out of the cool Crossfit click. ***KneBreeze*** eliminates the germs and bacteria that cause that "something inside you died" odor. Available in 3 fresh scents: Medicine Ball Spice, Tabata Spearmint and Push Press Pine. With its high intensity spray nozzle, it only takes a single application of ***KneBreeze*** for a scent that lasts for hours. Use it on wrist wraps, headbands, shoes, nearly every garment you wear...its hypoallergenic and GMO free. No animals were harmed in the testing of this product. Warning: Not to be taken internally or sprayed near open flames.

Squat-in-a-Box: If you're like me, you struggle with the depth of your squat. Let's not forget, we still need to get back up. If only there was a product that could do both. Wait no longer! ***Squat-in-a-Box***. Simply place the ***Squat-in-a-Box*** behind as you prepare to squat. Lower yourself to ***Squat-in-a-Box*** and let the turbo spring loaded seat propel you back up. No electricity or batteries needed. Wind it up with the recessed, titanium handle and while you do enjoy the happy calliope musical version of "Man in the Box" by Alice in Chains. Depending on your strength level, ***Squat-in-a-Box*** allows you to dial in your power. Choose from "The Colon Blaster," our most powerful setting, "The Glute Shoot," medium setting and "The Tush Push" for gentle easing up.

And with our unique, non-wipe formula, the chalk stays on your hands and not on your clothes. Here's the best part – it smells like chocolate...oh so sweet!
